SCHOOL OF ARCHITECTURE AND PLANNING

School Website: www.kent.ac.uk/architecture-planning

Please refer to the online Module Catalogue for full details of all modules:
www.kent.ac.uk/courses/modules

Note: The modules listed on Stages 2 and 3 of this course cannot be taken as wild modules by students from other programmes of study.

Architecture is only available as a Single honours programme. Students must study 120 Credits at both Stage 2 and Stage 3. At least 90 Credits must be taken at Level 6 during Stage 3 to be eligible for an Honours degree. Students are expected to register for 60 Credits in each term. Students will automatically be registered on all their Stage 2 and 3 modules as these are compulsory. **Please note that compensation, condonement and the trailing of failed modules cannot be applied anywhere within this programme.**

Stages 2 and 3

Modules will focus on four main themes in Stages Two and Three which underscore the design projects and ensure a richly varied programme. These are:

- Landscape, and the space between buildings.
- Dwelling, at the scale of the individual, the small group, and the community.
- Modular accommodation, in terms of an aggregation of spatial and constructional units.
- Urban design, planning and the quality of urban life.

Modules may be lecture, seminar and studio based; there will also be small group tutorials for design modules.

The Dissertation in Stage Three gives the opportunity to pursue personal interests in architecture in discussion with the tutor. A preliminary discussion of the dissertation with tutors will be arranged during the summer term of Stage 2 in order to give the student an opportunity to develop his/her research topic over the summer leading to Stage 3.

Students will have accumulated some knowledge in these areas during Stage 1, and will be enhancing core skills in:

- Design (including sustainable design);
- Environmental design, construction, materials and structure;
- History and theories of architecture, design and art;
- Communication, which involves computing and orthographic and observational drawing, model-making, and report writing and verbal presentation

In Stage 3 students will also be taught principles of management, including legal and professional aspects of practice.

Master of Architecture - Stages 4 and 5

The MArch is the second part of the two-part five-year continuum of undergraduate education leading ultimately towards professional registration.

The mode of formal professionally validated and prescribed architectural education in the UK usually takes the form of a five-year continuum of undergraduate education usually comprising a three-year full-time first-degree (with exemption from Part 1 of the professional examinations) followed by full-time two-year programme (with exemption from Part 2 of the professional examinations) as a continuation. At the University of Kent this is called the Master of Architecture (MArch), and contains modules at both level 7 (120 credits), and level 6 (120 credits). The two years of the MArch are referred to as Stages 4 and 5 and these follow on from Stages 1, 2 and 3 in the BA (Hons) in Architecture.

The information contained herein is correct at the time of publication. Please note, however, that if a module recruits fewer than 8 students it is possible that it will not run. In this event, you will be contacted and asked to select an alternative module. The University cannot guarantee whether all options will be available, or how they will be delivered, if Government Covid restrictions continue.
